Subject: SARS Data

b(6)

Tom:

I have almost worked out with Trugman and other cities how we will collect SARS data (number of incidents received, number submitted to Shared Space, eGuardian, etc, by category of report and reason not reported) from all the transit agencies.

I as going to initially start this with a weekly tally, probably through AMTRAK, but can I contact someone at DHS who can explore with me the possibility of getting these submissions to be made on-line with a database?

Thanks
BW
