Subject: Discussion and Action Items from Call on January 31, 2012

Hi [REDACTED]

Hope this finds you well. I wanted to thank you, Director [REDACTED] and [REDACTED] for attending the conference call yesterday to go through the NSI upgrade. I wanted to document the decisions and the action items that came out of the call.

Decision 1: FDLE will be sending all the SARs from its Shared Space to eGuardian. At this point, this will be handled automatically by the ETL. This will not have any impact on the current workflow that FDLE is following. This will be done for all the new SARs that are pushed from the In-Site system to the Shared Space. The push of the existing SARs to eGuardian will be handled separately.

Action Item 1: FDLE to provide the name of a person(s) that is authorized to send SARs from the Shared Space to eGuardian. This person must have a eGuardian ID account and an FC Approver status in eGuardian. FDLE will provide the name, the eGuardian email id to the NSI Technical Team.

Please let me know if there is anything that I missed.

Thanks,
[REDACTED]
