Subject: RE: Discussion and Action Items from Call on January 31, 2012

Hi [REDACTED]

Hope you are well and had a good weekend. I wanted to follow up and see if you had identified the name of the person who would be sending SARs to eGuardian.

I also wanted to update you on the Action Item 1. We have received an update from eGuardian. eGuardian has updated their system so that the person that is identified in the SAR sent to eGuardian does not need to have an existing eGuardian account nor have an FC Approver Status in eGuardian. This means that all we would need from you is the name of the designated person and the person's email id.

If you can send that to us, we can configure your site and ensure that all the new SARs are also sent to eGuardian.

Thanks,
[REDACTED]

Subject: Discussion and Action Items from Call on January 31, 2012

Hi [REDACTED]

Hope this finds you well. I wanted to thank you, Director [REDACTED] and [REDACTED] for attending the conference call yesterday to go through the NSI upgrade. I wanted to document the decisions and the action items that came out of the call.

Decision 1: FDLE will be sending all the SARs from its Shared Space to eGuardian. At this point, this will be handled automatically by the ETL. This will not have any impact on the current workflow that FDLE is following. This will be done for all the new SARs that are pushed from the In-Site system to the Shared Space. The push of the existing SARs to eGuardian will be handled separately.

Action Item 1: FDLE to provide the name of a person(s) that is authorized to send SARs from the Shared Space to eGuardian. This person must have a eGuardian ID account and an FC Approver status in eGuardian. FDLE will provide the name, the eGuardian email id to the NSI Technical Team.

Please let me know if there is anything that I missed.

Thanks,
[REDACTED]
