Disregard I got some heavy resistance from DHS to put money in DC . Apparently there is a long negative history.
Thanks anyway.

It will be early next week before we can get this information to you on what is remaining in the TA portion of the Global funding (all the fiscal people are out of the office today).

What do we look like funding wise in the TA program? I am looking at a number of options and just wanted to get an idea of where we are in the TA area Thomas O'Reilly

Tom,

I had a good meeting with Jeff and the CIO on what they want and need. There are three things in play here:

1. They need assistance in completing the development of their electronic forms, servers for their "swimming pool" where the information will be collected. This request is for approx. 50K. I would think this support would come from the FC TA side.
2. Participation in the Shared Space; the information held in the swimming pool that is identified as a SAR will be pushed to the shared space based on a triggering designation from their side. I already verified they will be able to do a VPN to share.
3. Moving identified SARs from their shared space to eGuardian to be viewed by the JTTF. This will fall on us to make this push happen. Jeff stated he will always leave the other options open; e.g. phone to JTTF directly or complete the eGuardian web form.

In talking to [REDACTED] (DC CIO) he is clear on the use of the SAR IEPD as the common sharing standard.

b(6)

Is there the money in the FC TA to handle item 1?

David
