I will reach out to them, but I'm would be cautious about bringing this into the mix right now. We have 12 sites plus eGuardian and DHS to address, I would keep this one in our back pocket as a bonus.

I will talk to [REDACTED] in the morning.

Just thinking but if there is any way to have a preliminary discussion with [REDACTED] et al before Tues' SAR Exec Meeting?
Would you consider what they are doing shared space besides using the SAR IEPD?
Any points you want me to make oat the Exec Session from a Tech view point. Can you ping [REDACTED] and see where they are on th privacy review of the Library? Thanks Tom

b(6)

Let's move forward as quickly as to set up the contracts with these 2 locations. I spoke to Tom and the grant types at our office and we can add them to the first grant as a deliverable. We can discuss further when we talk.

Also, we can have Tetras do the work there since it will now fall under their first contract.

David
