Subject: DoD and e-G update

In speaking with [redacted] earlier today, DoD is on track to start the implementation of e-Guardian in mid-Jan or early February.

[redacted] has finished the CONOPS and Implementation Plan, both of these are under review. [redacted] so he expects they will be done upon his return to work tomorrow).

[redacted]
The next step, which is already underway, is briefing and obtaining the approval of the Deputy Assistant Secretary of Defense (DASD) and then the Assistant Secretary of Defense (ASD).

Subject: Briefing for the Deputy Assistant Secretary of Defense (DASD) McDaniels - eGuardian

Gentlemen,

On 20 Nov @ 1000-1030 we (COL [redacted] and myself) will be briefing our DASD on eGuardian. This is the first brief in the effort to get approval for DoD-wide implementation. DASD McDaniels is familiar with eGuardian. He formerly was the TAG (Major General) for the Michigan National Guard. It should be easy...we would like to have FBI representation at this briefing in order to show unity. If your available, let me know. The front office would like Bio's, if you have available...if not...don't worry.
