Please see my "draft" talking points for the Monday meeting with DOJ/BJA. Most of my issues are specific to eGuardian and the Shared Space applications. I'm sure there are much broader issues that need to be discussed, however, we can't move forward without addressing the fundamentals. [REDACTED] is out of town and will send his talking points to me tomorrow. [REDACTED] is not really happy about the meeting.

Regards,

[REDACTED]
