Hello [redacted]
I would like to talk to you. I'm about to get on a conference call, can you give me your number? Thanks.

Hi [redacted]

Just doing a little follow-up. It would be helpful to get a window into the NSI-PMO development.

Last I heard, the a draft charter would be presented to the ISA-IPC for review and comment before it goes forward. That said, it might be helpful to you to get some informal perspective in advance.

Let me know how that process is going.

Best,

[redacted]

[redacted]
Spoke with [redacted] this last week. First, he did a great job at the Army AT Conference. The audience received the information on eGuardian well, we couldn't be more pleased. Thanks for the support.

[redacted] also mentioned the NSI PMO in our discussions. I was curious about the DoD rep and was surprised to hear we are not represented during the development of the charter. I've CC'ed [redacted] who is our policy lead for Information Sharing. Could you assist and provide details on the next meeting for NSI PMO?

EGuardian-669

Last two items. I asked [] to assist in a meeting with DASD McDaniel to discuss the privacy and civil liberties outreach conducted by the Bureau on eGuardian. I was informed today, the DASD will be out of the area this week, and perhaps we can reschedule for next week?

Last item, met with [] on Thursday. She stated there was some problems with eGuardian receiving information the NSI shared space. My understanding of this problem revolved around a privacy policy required by the NSI shared space. I asked if there was some confusion, as I understood the issue involved a technical issue. She remained adamant it was a privacy policy issue. I spoke to [] about this, and asked if any strategic message was being prepared to correct on the ongoing messages being delivered.
