Based on the current threat streams we are dealing with, it is imperative that no obstacles remain preventing the FCs from pushing SARs up at this time. (b) (6), (b) (7)(C)

Thanks Tom -

We are not solely reliant on the FC to ensure compliance - when any SAR is ingested into eGuardian - including from our own field offices - each one goes through 3 different quality control checks - 3 different units look at them - all 3 checks include a look to be sure the SAR meets our privacy/civil liberties standards. So we are fine with trusting that set of checks.

The e-mail is a good idea - we will coordinate with your office to get that message out to the EE sites.

Thanks!
