Nancy

There are a couple of issues surrounding the E Guardian program and the NSI program. When you have a couple of minutes I would like to discuss this with you . Let me know when you have a couple of minutes for a call. Thanks  
Tom

**Subject:** EGuardian relationship to the NSI

I have had to opportunity to follow up on our discussion at Bart's office last week. I have several suggestions on how we can move this issue ahead and resolve the concerns as expressed by the state and local FC as well as getting the information to the FBI.

First I want to level set some of the issues and clear up some of the miss information that may have been circulating concerning these issues.

(b)(5)

At the end of the day we are installing both EG and SS in all FCs and we are giving "seats" to all the SS members and the central EG staff to view anything and if they see anything that a FC has not sent to a JTTF they can request it be sent immediately. (b)(5)

(b)(5). The PMO is committed to working with you , DHS and the FC Directors and I think in addition to the action points suggested a meeting to discuss the issues and better integrate the EG Team into the PMO would be the best method to resolve the issues.

Thanks and let me know if you have any questions.

Tom
