Subject: eGuardian - Shared Space Update

Dave,

Per your request this morning, I'm providing you with an update. Apologies in advance for the long e-mail.

FBI and BJA/OJP, along with Nancy and Helaine, have now met a handful of times since the DAG decided (as I understand it) that he wanted to synchronize the two systems in a way that would 1) allow the two systems to operate in parallel while giving the user a choice as to which one to use and 2) ensure that all CT information that is shared with others reaches the FBI/JTTFs in the structured way that they need it and without meaningful delay.

(b) (5), (b) (7)(E)

If you have any other questions, please let me know. As I know Sean and Aaron have conveyed to you, we look forward to meeting with the DAG to discuss this effort and provide him with any other information that he may need.

Thanks,

[REDACTED]
