Subject: FW: Shared Space/eGuardian Interface

David and [REDACTED]

I've asked Clifton to be the person tracking the progress made by FBI and BJA in getting the interface in place. Looks like you've made pretty good progress but need to understand what the FBI has accomplished and their plans. I've asked him to coordinate a time sometime next week to get everyone together and put together a plan and schedule for getting this project completed. Are you all available next week? I know that we're supposed to meet Wednesday afternoon. Is it possible for the technical meeting to take place before the 1 pm meeting? I'd offer up our space but our conference room is booked that morning.

Thanks,

[REDACTED]
