Subject: Actions from 4/7 eGuardian/Shared Space Technical Drill-Down

David,

Good morning. Can you send (b) (3) a soft copy of the complete server order for eGuardian (Note #3 below)? Also, any status on server arrival at IJIS?

Regards,

(b) (3), (b) (3)

Subject: Draft Agenda for 4/7 eGuardian/Shared Space Technical Drill-Down

The subject meeting will be held at FTTTF, Tuesday 4/7, 10am - ~1pm. At this point I don't have a real conference room, so we will be relegated to (b) (6)' office again. Anticipated attendees are:

- (b) (6) (eGuardian)
- (b) (6) (eGuardian)
- (b) (6) (eGuardian)
- Arvinder Singh (eGuardian)
- (b) (6), (b) (6)
- Two developers from Tetris
- (b) (6) (IJIS)
- Others?

The focus of this meeting will be the process whereby eGuardian pushes incidents to the eGuardian Shared Space server (inquest discussion tentatively scheduled for 4/14).

(b) (6)

The ideal outcome of this meeting will be consensus on an overall architecture for the implementation, and a good start on the approach to information mapping.

That's about as detailed as I can get at this point. If anybody else has any suggestions please let me know.
