[REDACTED]

This is to request an update on the status of the eGuardian privacy policy. As of today we are live with 5 fusion centers participating in the ISE-SAR Evaluation Environment Initiative having privacy policies consistent with the ISE Privacy Guidelines that allow them to share and receive privacy field information from each of the other four centers through the shared spaces. The five centers are Florida, Virginia, Miami-Dade, Boston, and New York. We expect additional centers to go live before the end of the month.
