Subject: RE: SAR Push from ISE-SAR Shared Space to eGuardian

My fault for not clarifying. We did send the files as you stated, but there was some ingest problems. Those have been corrected and we are looking to send additional files as part of the test.

Thanks David –
 I under the impression from email communications that SS test files from FL, Miami-Dade, NY and VA have already been submitted and the testing was completed on this push to eGuardian from shared space in mid January. If testing is complete and functionally this "push" has been shown to work, I would think we are at the stage to discuss the policy issues that have been raised. If this testing is not complete, let me know.

Subject: FW: SAR Push from ISE-SAR Shared Space to eGuardian

Gentlemen –

[REDACTED]

I think we need to have some discussion and structured guidance if not consensus on this issue before we pull the trigger.

Subject: SAR Push from ISE-SAR Shared Space to eGuardian

Hi Everyone,

Hope you are all well. As you all know, we are in the process of finalizing the electronic push from the Shared Space to eGuardian.

As part of this, we would like to have each NSI participating site to nominate a person that will be responsible for pushing any SARs that each NSI participant wants to share with eGuardian. It is important that the person that is nominated has a valid LEO email id.

If you could send the name of the person from your site who would be the person to push the SARs to eGuardian and the LEO email id for that person, I would greatly appreciate it. If we could have this information by the beginning of next week, I would greatly appreciate it.

If you have any questions, please do not hesitate to contact David Lewis, [REDACTED] or myself. Thank you for your continued support.

Thanks,

[REDACTED]
