[REDACTED] Note the reference to [REDACTED]. We are also working on the same thing with David and IJIS.

What we need to do is to align our efforts and note pay for it twice.

I would like to sit down with the right people per or post [REDACTED] departure and discuss what we have on the drawing board like we did last week and then have EG lay out what they have either pending or in the works.

Any suggestion on how to handle this?

Tom and [REDACTED]

This is an email introduction.

Tom, [REDACTED] has been working with [REDACTED]. I thought it might be useful to have him explore this as well with the NSI program.

[REDACTED] and I have worked together for a long time and I am sure you will enjoy working with him.

Included your respective contact cards so you can hook up.

[REDACTED]  
I gave you a quick drive-by summary of our meeting with the FBI/eGuardian folks. Could you provide me with Tom O'Reilly's contact info...I don't want to get sideways with working the SAR effort.

Dan – this is a COP issue as well in terms of SAR data access/storage/visualization...

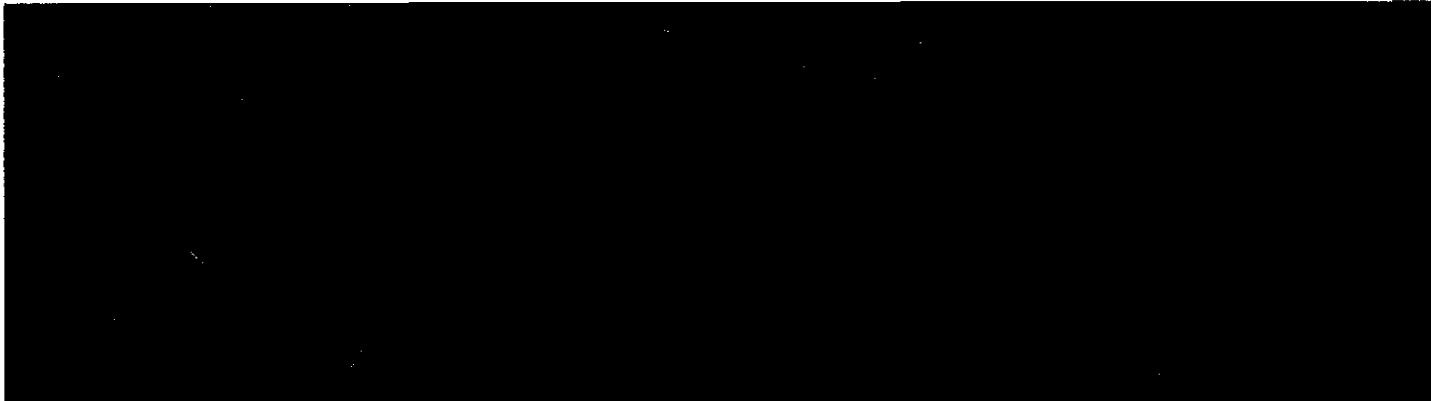

We will work with all players...  
Thanks

Thanks for meeting with us today. I did not take, "minutes", but here is what I saw as the take-aways:

The next discussions should delve deeper technically. There is some urgency, as Patrick is going to be speaking to some LE/Fusion Center people in early June. We can host a smaller-group visit at FTTTF just about any time this week or next. How about the afternoon of Friday, May 21?

Thanks!

ALCON:

This message updates the meeting location for tomorrow's eGuardian/DHS GMO Meeting.

[REDACTED]

The location is in the building at the corner of Wisconsin Avenue NW and Van Ness Street NW. It is the building where Ruby Tuesdays occupies the Ground Floor. The meeting room is located on the 4th Floor. To gain access to the 4th floor, please call 202-282-9400 from the Lobby and someone will escort you to the 4th floor.

The meeting room has internet access and projected display of the PC.

This is a meeting with the eGuardian Team (Technical and Business Process) to introduce the work being accomplished at the DHS Geospatial Management Office (GMO) that has a potential to enhance eGuardian and the NSI.
