David,

Attached are the results of searches on all databases using the start date of the first known record and the end date of today.

The eGuardian response appears inconsistent as follows:

Thank you,

I just used the same date range used by the FBI and was able to bring back all the records in NY's common box . . . a total of [REDACTED] This is a job well done. My personal congratulations to each and everyone of you.

(b) (6) – if you would be so kind to go back and do your searches again, per site, using the earliest record date and see if the results set matches the number of records at that location. You can do each site and then update your chart and send it back that would be extremely helpful.

David
