Subject:	Records Per Shared Space

Tom (b) (6) wanted to share this with you. I shows how many SARs are in the system from each of these sites. The graph depicts when we ping their servers (every 5 mins) to see if they are up and count how many SARs they have in the shared space. When the graph goes to zero, that indicates that their server was not responding when we pinged it. (b) (6)
