**Subject:** RE: SARs in the eG test environment

David,

We started testing import of the SARs, and found the following so far:

(b) (5), 7 (E)

(b)5, 7 (E)

This week we are thin on staff. Next week, January 4 through 8, I will be on vacation. I think we are looking at mid/late January before these issues might be resolved. If changes are necessary on both sides, we will want to go through at least another round of testing.

Happy New Year!

(b)(6)

There should be 15 SARs in you test environment; 5 each from FL, NY, and VA. We have reached out to all sites to get them also to send 5-10 "live" SARs to eG for evaluation.

Can you look at these files and see if there are any issues. I know there may be an issues with the email address. Let me know the issues and we can set up a call to discuss.

David
