All,
The eGuardian team has resolved the issue after consultation with Tetras today. We will verify but all appears to be fixed and eG SARs are back in their Shared Space.

All,

It seems that since 8/16, eGuardian has had 0 SARs in its shared space. It looks like on 8/16 the ETL ran 5 times with the first two times having 2754 records and the other 3 times having 0.
