FOIA Exemption (b)(6)

Hi David,

It was good seeing you in OH. I hope everything went well for you guys there.

You mentioned that your group has come up with answers to the questions below.... I still have not seen them. Can you send them to me, please? We are having a statewide meeting in a few weeks, and this is one of the topics of discussion.

Thank you,

FOIA Exemptions (b)(5), (b)(6)

Hi David,

I know you must be really busy getting lots of folks set up on the system, so I'm following up on my questions below to make sure you haven't forgotten about me. Greg Ladas, our Deputy Director, and I are working together to update our SARs processes and want to make sure they are in line with the NSI and the functional standards. We were both on the webinar last week and Tom said the functional standards are a 'guideline' and are flexible. [REDACTED]

[REDACTED] Some clarification on these issues would really help us out, as we want to be very clear on it ourselves prior to trying to get all of our analysts on board with these new guidelines.

Thanks, David. I look forward to hearing from you.

FOIA Exemption (b)(6)

Hi David,

FOIA Exemption (b)(5)

When we spoke at the NFCC you said I could reach out to you if I had any questions..... so here you go....

Are you guys getting similar questions from others using NSI/ISE? Can you advise and provide some guidance/clarification on the items above? I'm sure I will come up with additional questions as we continue to delve into this further.

Thanks for your help, David....and I'll talk to you soon!
