This conference is being held at the request of the field with the principal objective being to assist offices in determining how each office is addressing a particular threat within the region. Based upon submitted Domain Intelligence Notes and each Division's Annual Domain Assessment (ADA), Headquarters and Mid East Regional Intelligence Group (RIG) personnel will take one specific threat and provide guidance and suggestions on how the offices can gain a better understanding of the threat from a regional perspective. This will illustrate how a collective and cooperative effort provides a greater understanding of a threat within the region. Thereafter, the attendees will be given another topic based upon submitted DINs and the ADA, and develop a plan which will enable them to gain a regional perspective on the threat.

The conference will also include roundtable discussions on the following topics:

- Regional Intelligence Groups
- Field Office and Regional Collaboration
- HQ Operational Division CSCC
- Domain Intelligence Products
- Geospatial Analysis
- Assessments [REDACTED]
- [REDACTED] presentation by SIA [REDACTED] Seattle

The travel days for the conference are Tuesday, 27 October and Friday, 30 October 2009. Any personal travel on either end of the conference is the responsibility of the employee. The TR number for the conference will be provided to attendees by email once attendance is confirmed.

All employees should utilize the government contract airline carrier from their location to the designated airport. Transportation costs between the airport and hotel are approved. Rental cars are not approved for the conference. The hotel is within walking distance to the Seattle Field Office. Numerous restaurants are also within walking distance of the office.
