Title: Western Regional Domain Program Management/
Intelligence Program Management Conference
Seattle Field Office
Seattle, Washington
28-29 October 2009

Synopsis: Results of captioned conference.

Details: For information of recipients, captioned conference was held in Seattle, Washington during the time period of 26-29 October 2009 and attended by the majority of the Domain Management Coordinators and Intelligence Program Coordinators from the Western Region. In response to a request by the region, the purpose of the conference was to assist them in addressing threat priorities on a regional basis instead of only a field office basis. Presentations included but were not limited to Regional Intelligence Groups, Geospatial Analysis, [REDACTED] regional collaboration between field offices and general administrative issues such as the retooling of Domain Intelligence Notes (DINs).

1 - Annual Domain Assessments:

Are they still going to be required? If so, a due date needs to be set.

RECOMMENDATION: The participants suggested having them all due at same time; this would allow for synchronicity of information at least on a regional basis.

2 - Annual Priorities Board:

RECOMMENDATION: Writer opines that the effectiveness of the tasking mechanism will be lost if 1) they are not for urgent matters; 2) reasonable time lines are not established for the conduct of the tasking; 3) the DI does not do reasonable triage on taskings in cooperation with the operational divisions and 4) explicit guidance is not provided at the outset of the tasking.
