Subject: Administration of Human Sources

As you all know, the Director has placed additional emphasis in the recruitment, operation and administration of Human Sources. It is not only the responsibility of "street agents" to operate quality sources within established rules, regulations and the law, but it is also the responsibility of all managers, including me. In a near future, new initiatives will "roll out" to assist all of you in developing and maintaining a quality Human Source Program.

Periodically, we will e-mail you **HUMAN SOURCE ADVISORIES**. These advisories will focus on issues which are identified through the various audits we conduct, to include the inspection process. Also, every day we receive questions from your personnel concerning the administration of Human Sources. Through contact with field and HQ personnel we identify topics and issues which require additional guidance.

Attached is the first of the Human Source advisories. Ensure this is disseminated to the appropriate personnel. If you have any questions, feel free to call me directly or the Asset/Informant Unit (202-324-3154)

Thanks,
Louie Fraticelli
