Title: CONSOLIDATED PRIVATE SECTOR OUTREACH INITIATIVE

Synopsis: To establish a single Point of Contact (POC) for each Field Office, to coordinate all private sector outreach efforts.

Details: The FBI is mandated by several directives to form relationships and share information with the private sector. EO 12333, HSPD-7, ICD-205, and the 12/16/2005 Presidential Memorandum, Guideline 2, all mandate the federal government to pursue a coordinated and collaborative approach to sharing information with our state and local counterparts and the private sector.

The FBI has routinely conducted outreach with corporations and educational institutions regarding the symmetric and asymmetric threats which impact our national and economic security. These efforts are conducted at both the headquarters and local field office level by [REDACTED] Criminal, Cyber, and [REDACTED] subject matter experts who focus on developing trusted relationships with businesses, academic institutions, and other government agencies to increase awareness and foster information-sharing. Individually, these outreach activities have met with success [REDACTED]

Re: [REDACTED] 09/04/2009

b7A

This initiative is intended to accomplish several objectives: [REDACTED]
[REDACTED]

The SACAC, FBIHQ operational divisions involved in private sector outreach activities, and several private sector partners have provided valuable input during this process.

An important step in consolidating our outreach activities is to create a single POC for each field office. This individual will serve as the outreach coordinator for the field office, [REDACTED] and ensuring resources are applied as effectively and efficiently as possible. The outreach coordinator [REDACTED]
[REDACTED]
