All [redacted] asked me to forward this email to all of you. Please plan on attending the VTC as important information re the next phase of [redacted] training scheduled for SF in early May 2006 will be discussed. As you can imagine, there will be multiple taskings in preparation for the May training so we would like each SSA to invite/bring 1 or 2 additional personnel from each of your squads. We need additional Intel Branch personnel involved in the [redacted] taskings in order to expose/educate as many people as possible. This will take some of the workload off the three individuals that have been primarily tasked with every project or lead. It can be either analyst or agent personnel. The tentative dates for training: May 8-12, 2006. I believe the bulk of the training will be held in SF with a possible tour of [redacted] Thanks.
