White Supremacy Extremism

- *This presentation is designed to provide a foundational understanding of groups once or now existing which have been known to not only espouse extremist views, but to further those views through force or violence and a violation of federal law.*
- *FBI employees are reminded that criminality exhibited by certain members of these groups does not negate the constitutional rights of the group itself or its members to exercise their First Amendment rights. The FBI may not investigate, collect, or maintain information on United States persons solely for the purpose of monitoring activities protected by the First Amendment or the lawful exercise of other rights protected by the U.S. Constitution or laws of the United States. Investigations may not be based solely on the race, ethnicity, national origin, or religion of the speaker.*
- *Questions concerning when investigative activity is permissible should be directed to each field office's Chief Division Counsel or the Office of General Counsel's Investigative Law Unit or Privacy and Civil Liberties Unit.*
