Slide 53	Words of Wisdom on CHSs (Spies) Heaven is with the enlightened ruler and the wise general who use the higher intelligence of the army to subvert the enemy and thereby they achieve great results. Spies and secret important are also in order, but they are only tools and are only as good as the ruler and the general who use them. If you know the enemy and know yourself, you need not fear the results of a hundred battles. If you know only the enemy and not yourself, you will have a hundred defeats. If you know neither the enemy nor yourself, you will succumb in every battle. Knowledge of this always in disposition can only be obtained after long reflection. Spies cannot be usefully employed without a certain intuitive sagacity. This sagacity is proved and tested without formal tests and at night for darkness. Without subtle knowledge of the enemy, one cannot know certain of the truth of their report. Be subtle, be subtle and use your spies for every kind of business. Sun Tzu	Let's begin at the beginning. HUMINT is part of a collection management strategy. Collection management is the process of receiving and then converting intelligence needs and gaps into questions (intelligence collection requirements), prioritizing how those questions will be answered, assigning the questions to collectors for resolution and tracking our progress in answering the questions. Centuries ago, Sun Tzu employed the use of CHSs to win battles. He devoted an entire chapter to the Use of Spies.
