Good Morning ~

My apologies for not getting this out yesterday. True to form, DHS laptop breakdown at the worst possible moment!

Here is the draft BM for your review. To ensure OCOS has time to review, I need to get it up the chain by 12:00. Any input you have would be greatly appreciated. Specifically, any discussion points, background, accomplishments, cautionary topics related to the Dearborn CVE Working group would be appreciated! Not much available open source, so insider info to ensure Caitlin's familiarity with the group would greatly benefit the memo.

Thank you so much!
