What Job Fair? I don't recall seeing anything about you being involved in a job fair. Can you send me the emails from whomever approved or assigned you.

Thanks

Mike Klusacek

I don't know if I have any email that gives me authorization to go. This is a yearly thing and it's right her on the airport grounds. Here's one of the emails.

If you get some good snapshots of the event, please forward with any written highlights. I'll write a draft story for your reviews

Have fun tomorrow same as last year. This is a unique community event and job fair!

(X) This is the advisement email from Patricia Marchionni of BOCES of the planned job fair. This is not an authorization for you to attend on behalf of TSA. Please send me the email(s) from whomever approved or assigned you to today's event.

I did not receive any emails advising me you would be attending.

Thank you for your attention to this matter.

----- Forwarded message -----

Good Morning Business Partners,

We can all agree that work experience for our youth is essential. Career and Technical Education is where work experience is at its best! Our students excel, stay in school and learn valuable social and work skills through hands-on work activities and career exploration.

The New York State Board of Regents is revising its secondary pathways for graduation and a CTE Pathway has been proposed by the Career and Technical Education Content Advisory Panel. We are looking for your support for this proposal.

Attached are two documents regarding an initiative launched by the Association of Career and Technical Education Administrators (ACTEA) to encourage the New York State Board of Regents to approve CTE Pathways as an option for secondary students. The initiative is reviewed in the attachments.

If you are willing to support this initiative, there are several ways you may pledge your support:

1. You can fill in the paper form that is included, return it to me via email or fax (# below)
2. You can call me to make a commitment over the phone and I will enter your information
3. You can visit the ACTEA website (www.acteainc.org), the memorandum of support is on the home page along with a "Click here to sign the memorandum of support for Career and Technical Education" link. Clicking on this link will open a page allowing information to be entered and electronically submitted. All submissions from the website will be downloaded and compiled by the ACTEA office.

The information provided to me will be placed on a spreadsheet and submitted to ACTEA.

We need to submit supporters information by THIS Thursday, 6/13, so please respond as soon as you can.

Looking forward to hearing from you! Your support and time is greatly appreciated.

Please pass this on to your colleagues so they too can pledge their support!

Working together to mold the next generation of skilled technicians and employees,
Trish
