Subject: DOI /FC P/CR/CL AND CVE AAR
Date: Monday, April 30, 2012 11:50:55 AM

Boss & Colleagues,

The DOI/FC hosted DHS' Privacy, Civil Rights and Civil Liberties (P/CR/CL) training on 17 April and Countering Violent Extremism (CVE) curriculum on 18 April. Since most of you have already hosted this training I'll keep this After Action Report brief and highlight only those areas that may be of help for future training venues.

The two training flyers we published, with assistance from Training Division, were passed previously in my WAR so to save Inbox storage limits please refer to that document but if anyone wants another copy, just email/call and I'll forward. There are no proprietary elements to either of these flyers so please use and edit them if they are of value to your next training venues.

For Privacy, Civil Rights and Civil Liberties we maxed out our training facility with 30 attendees. This is partly due to the fact that Director (b) (6) made the P/CR/CL mandatory for all Fusion Center Staff including our special agents Overall, most of the critiques came in at the 4 and 5 level (out of 5 maximum possible) so I'm pleased, relieved actually, that our Fusion Center staff found it useful and informative.

For the CVE training, I (b) (5) for our 250 seat venue. (b) (5) we only had a final attendance of 75. (b) (5); there were no other big conferences in Iowa conflicting with our dates but from the outset, there just didn't seem to be interest or an enthusiastic response from our law enforcement, DHS Component or First Responder communities to this part of our two-day course offering.

As far as content, the P/CR/CL is understandably a bit dry as to content but two of the three instructors, (b) (6) were animated with good information flow and kept the participants' attention. (b) (6) was also part of the P/CR/CL presentation and my IT manager, our Iowa Privacy Officer, and I found his delivery a (b) (5). Fortunately (b) (6) had the smallest part of the P/CR/CL training block (b) (5) (b) (6) presented a condensed version of his CVE training during the last hour of the first day's P/CR/CL portion and (b) (6) always puts on a good session. I'd be interested

if others have evaluated (b) (6) in the same light (b) (5) .
(b) (6) was the sole presenter on the second day's CVE training and his critiques were also in the 4-5 range and (b) (5) .

Dang, thought I could keep this to one page. Please feel free to reach out to me if you have not yet had this training and would like clarification on any aspects of the preparation or execution of these courses.

V/R
