Attachments: OSC_OSO_Memo BDAD.pdf; EOD Transfer from OSC to OSO pdf; BDAD Org Chart V3.docx

Sean,

I have a folder on the way to OHC with the following three attached documents. Not trusting how long folder routings take and the accelerated timeline I am under, I am also including this preemptive email. AA-OSO Chris McLaughlin and AA-OSC Kelly Hoggan are requested that DA Rossides approve the following two actions:

- 1) Transfer the EOD (BAO) program back to OSO from OSC in its entirety.
- 2) Approve the transfer of two positions (to include the FTE) from OSC to OSO to provide necessary support to the program office in OSC and act as a direct interface with OSO Field Operations from OSO.

Some additional information.

- Both Chris and I support the requirement for PMODs to complete an entity review of the EOD organization once transferred.
- I have submitted an organization structure for the BDO entity. I have personally conducted a preliminary review with Mrs. Karin to ensure it is within norm. The only position that may need additional review if the lead liaison position placed in OSO and this has been discussed with OSO-Director Field Ops.

I have copied the three individuals in your organization that I know will also comment or review these documents --- Deborah Grade, Tony Savastana and Lori Karin. I have also copied in AA McLaughlin so you know this is a joined request from both of us.

I expect to discuss in detail, along with Chris, next week with DA Rossides. Please call if you have any questions. The folder from my office should hit your desk within the hour.

Regards - Kelly
