Subject: CLEARANCE: Draft CVE Jordan NOFO

Tobias, Peter and Katrina,

CT is working on a global NOFO requesting submissions for proposals for CVE programming. Attached is the draft we're working on, below is the Jordan specific section.

Requesting Post clearance on the language by COB Friday. Again, we do not have to award this if we do not like any of the submissions. In late June timeframe, we would convene a review panel and make these decisions.

Let me know if you have questions or wish to discuss.
