

Statement for Incident of September 24, 2012

At or about 0745 myself and MBDO (b)(6) were conducting (b)(3) 49 U.S.C. § 111 the parking structure. We had just completed walking all of the structure and were once again on Level 1. We had just discussed on what time we would be going to lunch and she had said that we would be going to lunch at 0800. MBDO (b)(6) asked me for a cigarette and they were in my right sock so I sat on the bench to get them out. I handed one to her and took out one for myself. We both inadvertently lit the cigarettes and at that time we noticed a car with someone waving at us. MBDO (b)(6) said something to the effect of "Well lets go" and since we had just put out the cigarettes we continued to walk until 0800.

I want to mention that this was the first time that I have smoked on any play and that it was unfortunate that it was viewed by STSM Gonzales. I do not want it to be thought of that this is something that is ongoing with me, that would not be the case. It was unfortunate not because it was viewed by STSM Gonzales but that it occurred in the first case. The timing of the conversation about lunch, the asking for a cigarette and stopping to get them out, the habit of lighting the cigarette took over. Once we realized that we had lit the cigarette we had put them out and continued to conduct the remainder of the play that we were assigned. This would have occurred whether STSM Gonzales saw us or not.
