

## **Sub-IPC on CVE Training for Law Enforcement**

**March 1, 2012, 3:00 AM – 5:00 PM**

**BLDG 4; Conf Room 124 // Dial-In: (b) (6), (b) (7)(C)**

### **PURPOSE:**

- Re-kick off the sub-IPC discussion on CVE Law Enforcement training.

### **BACKGROUND INFORMATION:**

- This is the first sub-IPC on CVE Law Enforcement Training this year; Dan Sutherland (NCTC) will be re-kicking off the meeting with you. Both DHS-CTWG and NCTC are now chairing this sub-IPC.
- The major deliverable that came out of this group last year was the CVE Training Guidance that CRCL then issued with FEMA via an informational bulletin.
- CRCL has previously chaired this sub-IPC, and should be recognized for the work that they had previously done.
- There is a major emphasis on law enforcement training given recent issues; this group will be leveraged to coordinate interagency training efforts and bring best practices to the surface.
- It is clear that many departments and agencies (DOS, DOD, DHS, NCTC, DOJ(COPS), DOE, and others) have trainings and are developing trainings that will have an impact on law enforcement CVE efforts.
- Given the re-kick off of this sub-IPC, it will focus on immediate and long term deliverable goals, and this group will expand with participation.
- Jenny Presswalla and Nate Snyder will drive the agenda after you kick things off.

### **TALKING POINTS**

- **How is DHS working to implement the priorities in the SIP?**
  - DHS' Internal CVE Working Group meets weekly to ensure the priorities of the SIP are being implemented and is tracking the progress of each individual priority. DHS, NCTC, DOJ, and the FBI have committed to forming a small working group to meet on a bi-weekly basis to ensure the priorities in the SIP are implemented in a timely manner. The interagency also coordinated the development of the SIP through the multiple Deputies Breakfast meetings, and will continue to advance the priorities in the SIP through these meetings.
- **How is DHS ensuring that its training and curriculum development is coordinated with the interagency and meets the mutual standards agreed upon by the interagency?**
  - DHS created a CVE Curriculum Working Group on September 17, 2010, chaired by LAPD Deputy Chief Michael Downing, as a result of the HSAC recommendations that were issued in August, 2010, and this Curriculum Working Group was comprised of representatives from the federal government and state and local law enforcement entities. This working group met multiple times to discuss best practices for community policing

and ultimately created a new curriculum guidance based on mutually agreed upon standards and definitions.

- DHS is currently establishing an internal training review process that will look at all DHS provided and funded CVE trainings; it will ensure that all DHS trainings are in line with Department and Administration approach on CVE.
  - FEMA issued training guidance with an informational bulletin to all grantees, state and local partners, and law enforcement outlining how training and trainers should be accurate, intelligence driven, legally following civil rights and civil liberties protections, and operationally sound.
  - The guidance is based off the work of the Interagency Law Enforcement Training Working Group that is lead by DHS and continues to meet.
- **What is the status and anticipated timeline for the development of CVE curriculum?**
    - DHS is currently in the process of developing a comprehensive CVE curriculum for federal, state, local, and tribal law enforcement focused on a community oriented policing approach to combat violent crime and counter violent extremism.
    - DHS along with state and local partners (LAPD/National Consortium for Advance Policing) is developing a CVE curriculum that will be introduced into law enforcement academies as well as a 16 hour continuing education curriculum that will be focused on executive and front line officers. The curriculum will be POST certified and rolled out regionally with a network of approved local CVE trainers.
      - The Curriculum was piloted successfully in San Diego on January 25-27<sup>th</sup> and included front-line and executive officers from the San Diego area.
    - The Major Cities Chief Association recently passed a motion to adopt and implement the curriculum; San Diego PD will pilot the curriculum.
    - FLETC finished the development of a CVE curriculum that will be integrated into existing training programs for federal law enforcement that will focus on cultural awareness, engagement practices, and how best to work with local law enforcement and communities to keep local partnerships intact. FLETC piloted an overview of the curriculum on February, 16, 2012 in Glyncro, GA.
  - The SIP lists the current and future actions the USG will take in support of a locally-focused, community-based approach, in three broad areas:
    - **Enhancing Engagement with and support to local communities:** Our aims in engaging with communities to discuss violent extremism are to (1) share sound, meaningful, and timely information about the threat of radicalization to violence with a wide range of groups and organizations; (2) respond to concerns about government policies and actions; and (3) better understand how we can effectively support community-based solutions.
    - **Building Government and Law Enforcement Expertise:** We are building robust training programs to ensure that communities, government, and law enforcement receive accurate, intelligence-based information about the dynamics of violent extremism. Misinformation about the threat and poor training harms our security by sending stakeholders in the wrong direction and creating tensions with communities.
    - **Countering Violent Extremist Propaganda while Promoting our Ideals:** We will aggressively counter violent extremist ideologies – including on the Internet – by

educating and empowering communities and promoting our ideals. In the case of our current priority, we will, through our words and deeds, rebut al-Qa'ida's lie that the United States is somehow at war with Islam.

- The SIP Approach underscores the strength of community-based problem solving, local partnerships, and community-oriented policing. We are building our efforts from existing structures, while creating capacity to fill gaps as we implement programs.
