

Tasks Aligned to Priorities and Objectives Quick Reference Guide

National Priorities	CVE TF	Research and Analysis LOE	Engagements and Technical Assistance LOE	Communications LOE	Interventions LOE
Enhance Federal Engagement with local communities that may be targeted by violent extremists	• Coordinate, prioritize and deconflict domestic CVE activities with stakeholders	• Leverage research networks • Recommend strategy adaptations based upon continually enhanced threat understanding	• Provide training based on intelligence, research, and accurate info about how people are radicalized to accept violence and what has worked	• Develop and make accessible digital technologies for application locally	• Identify, assess, and reinforce LE-led multidisciplinary intervention programs
Enhance Federal support to local communities that may be targeted by violent extremists	• Coordinate, prioritize and deconflict domestic CVE activities across the federal government • Establish assessment and allocation prioritization process	• Coordinate federal support for research, development and relevant program evaluation • ID and assess promising practices and programs	• Develop and distribute CVE information resources • Develop and distribute training and tools • Establish reach back support mechanisms for stakeholders to access	• Create partnerships between federal government and third parties with CVE-relevant expertise	• Advise, assist and provide support to community efforts to intervene between violent extremists and vulnerable individuals or groups
Build government and law enforcement expertise	• Ensure non-traditional partners participate and contribute to broad community engagements and relationship responsibilities	• Assess government and LE expertise and inform education and training efforts	• Incorporate non-traditional partners into available CVE expert pool • Increase numbers of educated and trained government and LE personnel	• Develop and maintain a centrally managed analysis and information resource library	• Provide intervention training to state and local LE personnel
Counter propaganda while promoting our ideals	• Maintain centrally managed national messages and themes • Incorporate regional perspectives and local messaging via enduring engagements	• Closely monitor the important role the internet and social networking sites play in advancing violent extremist narratives		• Develop and apply communications and media strategy • Coordinate a centrally managed effort	• Apply centrally managed intervention messaging
Operational Goals by Line of Effort	• Federal and local efforts are complimentary and reinforcing rather than disjointed, redundant or lacking • Assessment process with feedback mechanisms in place	• New developments are identified and predicted • A continually enhanced understanding of the threat posed by violent extremism and the ways in which individuals or groups seek to radicalize Americans is maintained	• Local partners apply training to prevent radicalization • Federal and LE personnel are informed and apply training to enable and empower local partners	• Digital technologies engage, empower and connect CVE stakeholders to the communications narrative • Accessible, detailed threat picture and information resources are available and applied to prevention efforts	• Communities lead successful interventions • Alternative disposition options and rehabilitation programs are applied to those who have reached the threshold for LE action
Strategic Goal	<i>Violent extremists and their supporters are prevented from inspiring, radicalizing, financing, or recruiting individuals or groups in the U.S. to commit acts of violence.</i>
