Ok, I finally was able to turn back to this today. I've accepted and addressed all of your comments and edits, and attached a clean version and redline so you can see. Please let me know if you have any last-minute suggestions (to the clean) by tomorrow (Tuesday) noon. After that I'll put it in more formal clearance. Thanks.

Pete,

My comments attached representing OSO input. This is a tough subject matter and I thought you did a good job putting together a memo on a complex topic. (b)(5)

(b)(5) If you need assistance or clarification I'm happy to come over and discuss. Again, thanks.

Also, have you received the results of the 2010 BDO Validation Study? It was an approx 6-month study (think 6-months or so) on BDO referrals to help validate the program. Instead of referrals on behavior, BDOs would randomly pick people out of line and make them a referral. Findings on random referral subject were compared to success rates of behavior referral subjects. (b)(5)

(b)(5)

Thanks,

Dave

Attached is my shot at the memo for the group. Please review and provide edits/comments by COB Monday 9/17. YOU ARE NOT SIGNING OFF FOR YOUR AA, SO DON'T HOLD IT FOR THEIR REVIEW. I'll put it into formal circulation next. Please also provide me with your view of what the recommendation should be where I've bolded the choices. Depending on the number and type of edits/comments, we'll meet again to work through them. If they are all minor, I'll just make the edits and put it in formal clearance. Thanks.
