Subject: RE: Call with LA today

So far there has been no FBI participation. There are giving the lunch speech. I just got an interesting call from [REDACTED] eGuardian, advising Pittsburgh is attempting to set up a fusion center and he thought the SS would be a solution for them. I will give you a call later to discuss further, but with the G-20 going to be there maybe we can assist in some way.

David

[REDACTED] has not responded to the email sent last week requesting this call. Perhaps you could try to reach her?

Subject: Call with LA today

[REDACTED]

Is there or was there a call today with LA on the CAMS extract?
