Really? I know there was a \$500K for the federated registry, so that would have been in addition. I think the tracking chart from 2006 was not completely updated..

I think that money was for the federated registry.

Amanda, one more quick request on this. Can you see if the \$350K might have come from FBI instead of direct from PMISE? Pat remembered some issues back in 2006/2007 where money went to FBI by mistake that should have come to us. If so, then this may be exactly the same problem as with the DOJ drawdown where the money moved halfway but was never drawn down from PMISE.

Chris-

I can't find an agreement from PMISE for this project. On our commitment charts, it looks like it was funded from our money in early FY07 and there is nothing within the GMS award package regarding an incoming agreement. For some reason, Michelle approved this redbook out of BJA.

I also checked our IAA files and nothing for this amount from PMISE for E-Guardian.

Amanda

Tom, no wonder I didn't catch this on a first pass, this was from before I became a Fed!

Amanda, can you check on the agreement for this money? PM-ISE is asking why it hasn't been drawn down in total from them yet, so I'm thinking there may be another period of performance issue, or at least they just want to get this old money off their books. It looks like the award was extended for a couple years beyond the initial period. The app number is 2007-F0018-FL-DD. Thanks!
