Subject: RE: eG access to the NCIRC portal

Okay, thanks. I knew that they were approved to be added but the action wasn't communicated so I wanted to add things like that to the report. Will you please include me when you distribute the bi-weekly report? Thanks again. [REDACTED]

[REDACTED]

They are already included in the report. I saw that the report on Friday included their searches on the NSI system and users who have searched the eGuardian system.

David Lewis approved the users and including eGuardian and WSFC to the SAR portal a few weeks ago.

Thanks!

Hi [REDACTED]

Tom O'Reilly related to several of us last week that he found out (after the fact) a couple of days ago that approximately 25 eG analysts had been granted access to the NSI SS search portal. Would it be possible to provide us information like this when you forward the bi-weekly stats? We can then include such information in the transmittal e-mail when we distribute the stats to the NSI team members.

Are you able to provide us these details for the last report period (2/12 - 2/26)?

Thanks, and please let me know if you have any questions or if you'd like to discuss this further. [REDACTED]
