Subject:	Draft HSAC CVE Subcommittee Tasking Memo

George, David, Lauren,

Attaching some suggested edits that I think help contextualize the Secretary's vision for what we are asking the subcommittee to do and why. I have no pride of authorship so feel free to disregard. George, I think it makes sense to have Farah take a look since she worked on the foreign fighter report and is chairing this new subcommittee. I want to make sure I have pulled the right language from the FF report. Also, wondering whether tasking this group to consider best practices for law enforcement training is part of what we want them to consider; will this group include law enforcement training expertise? And finally, from what sectors are we drawing the members? We mention private industry and academia; any others?

Hoping we are close on this....Thanks to all of you who did the heavy lifting.

sm
