Sir,

I am tracking 6 casualties at the US FST at TK. Also they told me that another 6 were sent to the Dutch FST. The Centrix line is down so I cannot confirm the Dutch casualties. Once casualty care complete US FST will call over to Dutch and get update (about 1-2 hours). Here is info I have on casualties at US FST:

1. 20ish year old male with extremity injuries and burns to the face
2. 20ish year old male with fracture foot with compartment syndrome
3. 20ish year old male with partial lower leg amputation
4. 30ish year old male with blast injuries to lower leg
5. Teenish male with minor leg shrapnel injuries
6. Teenish male with minor leg shrapnel injuries

More to follow in a few hours.

0928Z BATTLE CAPTAIN REVIEWED AND SUBMITTED

"Sir,
This looks accurate. Still trying to reach (b)(1)1.4a on SAT / iridium. No contact ATT."

This was based on information that was reported up from the GFC who had moved via helicopter to the strike site. There was a break in communication via satellite voice between the SOTF and GFC, who had to request the MEDEVAC thru the AOB. The GFC had used his iridium phone to call the SOTF OPCEN in order to provide updates, but this system was frequently cutting off during conversations, possibly due to the weather system pushing in from the west. At this point the only traffic from the GFC that was understood by the SOTF OPCEN was something similar to "7x MAMs - all males - MEDEVAC'd." It was not clear that any woman or children had been MEDEVAC from the strike site. It was however, understood from a previous report at approximately 0848Z that three woman and three children were at the strike site but uninjured.

0940Z BATTLE CAPTAIN RECEIVED EMAIL FROM CJSOTFA REGARDING CREATING A STORYBOARD CONCERNING ENGAGEMENT IN ORDER TO PASS TO HIGHER.

"GOT IT...THE SW IS GOING TO COL (b)(3), (b)(6) AND THEN TO CFSOCC-A...WE NEED TO START A STORYBOARD READY TO BE VIEWED BY COMCJSOTF-A IN ABOUT 40 MIN...CAN YOU DO IT OR DO YOU WANT US TO GENERATE?"

0938Z BATTLE CAPTAIN SUBMITTED TO CJSOTFA JOC CHIEF

"Sir - we have no photos ATT. Recommend that CJSOTF generate storyboard. We have negative comms will (b)(1)1.4a but have passed to them thru ISR to call ASAP.

GFC last said that he needs more time to conduct thorough (b)(1)1.4c He said he wouldn't take photos of the KIA - but of the strike."

RE: 5W

Sir - we have no photos ATT. Recommend that CJSOTF generate storyboard. We have negative comms will (b)(1)1.4a but have passed to them thru ISR to call ASAP.

GFC last said that he needs more time to conduct thorough (b)(1)1.4c He said he wouldn't take photos of the KIA - but of the strike.

Sir,

This looks accurate. Still trying to reach (b)(1)1.4a on SAT / iridium. No contact ATT.
