Subject: Kenosha

FYI just a heads up, I was in Kenosha last night and anticipate heading back there in a bit.

DCI is running the shooting investigation and we/FBI may be assisting in a neighborhood canvas, but it sounds like the neighborhood is still very active.

The CP is currently at Bradford HS but may be moving to KCDC at 2pm.

More protests/riots are anticipated tonight, so we'll be sending SWAT, the plane, and some other assets down.

I'm guessing Kenosha has/will be asking for more local riot/SWAT assistance as well.

This will officially be my last week at the TF and I was going to get Portillos on Wednesday, however with the protests I'm going to put that on hold for some other week.

I'll advise on that.

If you're coming down or protecting Racine stay safe and if you need anything let Joe or I know.

Mike
