Good Evening,

Attached is the OED Summary Report for today (3/30).

We found the discrepancy between the 21 users we verified (showing on our report) and the 20 users that you all have from us via the SFTP.

After a claimant goes through a Trusted Referee (TR) or Virtual In-Person session, they must login to their account and click "Allow Consent." We **legally** cannot send over their data to OED until they "Allow Consent" in their account. There is a claimant that went through a TR session but did not log back in and Allow Consent. After they do that, their name and data will populate during our nightly data sync.

Please let me know if you have any questions!

Thanks,
Dan
