Learn Best Practices to Reduce Fraud From Our Expert Panel

Our expert panel will share lessons learned from real-world experiences working with multiple states on difficulties surrounding Identity Verification for Unemployment Insurance (UI) and Pandemic Unemployment Assistance (PUA).

Topics we'll cover include:

- Common attack vectors being used by organized crime syndicates including:
 - Social engineering
 - Synthetic identity fraud
 - Stolen PII from the dark web
- Recommendations on how to deter and prevent fraud attacks using technologies such as:
 - Face liveness detection
 - Telecom device reputation scoring
 - Live verification via video conference
- Advice on performing forensic analysis and working with law enforcement, as well as creating a repository of known fraudulent actors.
