Linda, Tonya,

Sarah writes below that the BDO SOP has gone into formal coordination. Have you seen it yet?

Kelly,

You have an idea on timing for the indicator language? We are trying to figure out whether we should hold the release of the referral form reference guide (if you anticipate language early next week) or if it will be longer. If it is the former, we will release the guide and then change the pertinent language when we can.

Also: FYSA our SOP revision went into agency-wide circulation yesterday. OCC received a copy through the normal routing.

Sarah,

As we discussed yesterday afternoon, OCC needs to receive DHS OGC's feedback on the language. Once we have that in hand, I will be in a better place to think through next steps.

Kelly,

I saw I missed your call on Friday but I am around all of today. We are standing by awaiting OCC approved language to move forward on the two indicator verbiage change. I saw that Francine sent the language to OGC and I received your message that you understood that the current language, [REDACTED]

(b)(5)

We have our training documents discussing the change and the referral sheet guide (which John Bauer just reviewed), queued up so the second we get it from you all and finalized, we will start prepping communications and aides for the field.

Thanks

All,

Please be aware that the language of 2 indicators have changed, effective immediately. The indicators have been updated in PMIS as well as the Referral Report. The Behavioral Indicator Reference Guide is being updated to reflect these changes. Please visit the BDO Toolbox on the BDA iShare to access the newest version of the Referral Report. Also, always remember not to save any referral information on the shared document. Instead, please save the file to your desktop. As always, contact us with any questions.

Melanie,

I received this from Sarah this morning; looks like we are all set, thank you.

I know Sarah is out today, but would it be possible for me to get access to the below links? I have access to some OSO sites, but apparently not this one.

Thanks,
John B.

Francine,

The changes to the two indicators went to the field and became effective Friday, November 15. I have access to the BDO/BDA ishare site and just confirmed they are on-line.
