Hello,

I just finished a report for 2 less lethal deployments during the Kenosha CDU request on 8/24. Is a unique report as its my first less lethal report, and was during a riot. I'm wondering if either/both of you would be able to review it prior to being locked and provide any feedback/corrections.

I understand that you are both very busy at these times. There is no rush, per Lt. Becker it was done at a priority 3.

Thank you in advance!
