---

We do have the ability to say no. If we have volunteers we go if we don't have volunteers we don't need to go

I don't want to text any shift or division. If this isn't something we can sustain I'm good with saying we are unavailable

Captain,

I think it's time to start a conversion using personnel from the other two divisions to help during these times. We'd take them on the road or the SMART responses. Thoughts?
