Subject: SMART Clarification

Membership –

There have been SMART request over the past couple months relative to pre-planned events as well as riot control. SMART is not to be utilized as a force multiplier for pre-planned events. Furthermore, SMART is not to be used for riot control. To keep it simple, not all agencies are equipped or trained in riot control or violent protest. SMART can be utilized in support of events of this nature, they can't be used as the front line. Ancillary tasks like prisoner transport, traffic control or general station security would be more of the use of SMART officers. This email is not directed at the events in Kenosha County last night but to bring a better understanding of many emails and phone calls I have received seeking clarification on the spirit of SMART. Please let me know if you have any questions.

Kind Regards,

Dan Baumann
