Ok. Will do.

Sheriffs are beginning to send back the "documentation of participation" form; I think you can count on most of the 14 agreeing to participate. Slowly, but surely, we are getting point of contact names and attendee names for 05/14 kick-off.

I've been forwarding information to Bri's attention at BI@ in Plymouth.

Two things, please:

1. Can we have a conversation about how BI@ wants to approach the content-presentation plan for the 05/14 kick-off session? I just want a sense of how you think the presentation will un-fold.
2. Please use my new work e-mail address: james.f.walsh@massmail.state.ma.us

Thank you, as always,

j.w.

Dear Jim,

Thanks for the bid check! Unexpected and much appreciated.

Attached please find photos of the MORIS device we discussed. As we discussed, I will send you suggested language to the contract to enable the MSA to purchase 15 for your Sheriffs.

MORIS is facial recognition enabled today!!! As I mentioned, iris and fingerprint will be ready during the summer. Please let me know what you think!

Best wishes,

Sean

Jim:

I wanted to keep you in the loop on the matter noted below.

The BI2 Technologies bid for the Facial Recognition Technology Upgrade and Expansion is \$148,000+. This figure will leave a balance of the Grant available to use for additional Vendor services – provided the added services relate specifically to the purpose of the federal Grant.

WE (MSA and BI2 Technologies) are going to explore the possible purchase of the noted Hand-held units and explore the possibility of making them available to the participating police departments.

I just wanted you to have the “heads-up” on this. I will keep you informed if we do, in fact, come to an agreement to modify the Contract.

Thanks,

j.w.
